

WARNING

Keep out of the reach of children. Read the label before use.

RATABATE® PASTE

FOR THE CONTROL OF RATS

Contains Diphacinone 0.05g/kg in the form of a bait.

WARNING: May cause organ damage from repeated oral exposure. May cause adverse effects to aquatic environments.

PRECAUTIONS: Avoid skin contact, wash hands and exposed skin before meals and after work. Store in the original container tightly closed, away from foodstuffs, children and domestic animals. Prevent access to baits by children, pets or domestic animals. Do not lay baits where food or feed could be contaminated. Avoid contamination of any water supply with baits or empty containers. Bury any dead rats found. Bait containers and uneaten bait should be either buried in a suitable landfill or burnt if circumstances, especially wind direction, permit.

DIRECTIONS FOR USE: Use in bait bags or bait stations only. Locate bait in dry position near runways and nesting sites away from children, pets and domestic animals. Maintain an uninterrupted supply of fresh bait for at least 10 days or longer if signs of rat activity continue.

BY LAW: This product must only be used as specified on the label.

FIRST AID.

If swallowed, **do NOT** induce vomiting. For advice, contact the National Poisons Centre, tel 0800 poison (0800 764 766). If skin contact occurs, remove contaminated clothing and flush skin with running water. A Safety Data Sheet is available at www.connovation.co.nz.

CONDITIONS OF SALE.

Aotea IP Holdings Ltd and Connovation Ltd will not accept any responsibility for any consequential loss, injury or damage arising in connection with the supply or use of these goods other than the goods be of merchandisable quality at the time of sale.
