

D3 RAT ONE FEED BAIT

Vitamin D3 Rat Control

Product Forms

- Paste in pails for use in permanent or fixed bait stations.

Product Features

- D3 paste is a high quality and cost effective form of pest control that targets rats.
- Similar to Feracol that contains 4 g/kg cholecalciferol.
- Highly palatable to target animals.
- A cost effective rat control option.
- Made with the active ingredient Vitamin D3 or Cholecalciferol, a naturally occurring vitamin that is toxic when used in high doses.
- Biodegradable with no persistent residues.
- Water resistant- remaining palatable for up to two months in the field.
- Environmentally responsible, no secondary kills- minimal risk to native birds and other non-target species.
- Safe to handle.
- No license required
