

B-BLOCK

Effective Rodent Control

Product Features

- B-Block is a hard block bait used for rodent control.
- Ready-for-use and formulated using high quality ingredients which are bound together by edible waxes.
- Blocks incorporate the active ingredient Brodifacoum; ensuring that rats dies within a few days.
- Suitable for indoor and outdoor use in and around industrial, commercial, public services, agricultural and domestic buildings.
- Each block is square and has a central hole for securing in place for the prevention of caching.
- Contains an aroma, giving a unique vanilla smell that rats and mice like to eat.
- Use only with appropriate bait station such as the Connovation No.8er Bait Station.
- Vitamin K1 is an effective antidote against accidental poisoning.

Companion Products

- Bite Me Monitoring Cards
- No.8er Bait Station
