

CONNOVATION

CONSERVATION BY INNOVATION

FERAFEEDS

Description

Connovation Ferafeeds are non-toxic and designed to be used before and with toxic baits. Research has clearly established that pre-feeding prior to laying of poisonous baits enhances the success of the control operation. Our range of Ferafeeds is designed to achieve the objectives of the control operation and the invasive species being targeted.

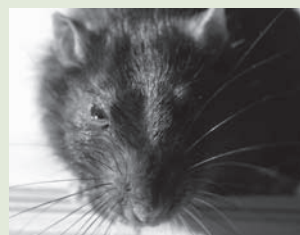

Why use Ferafeeds?

- Only palatable non toxic food grade ingredients used.
- Highly regarded industry pre-feed used by large contractors, Government agencies and Community groups.
- Irresistible to rodents, possums and mustelids.
- Paste options prevent bait caching and encourage on site-feeding.
- Most pre-feed requirements can be met by one of the variants available.

Formulation	Species			Packaging		
	Possums	Rats	Mustelids (stoats, ferrets, weasels)	Striker Bait Station	Defender Bait Station	Pail/Tube
Ferafeed 213 Paste This unique formula combines peanut butter and mixed grains which are irresistible.	Y	Y	N	Y	Y	Y
Ferafeed 215 Paste This formula is palatable to possums, but not so for rats. Ideal for operation where there are high rodent numbers.	Y	N	N	Y	Y	Y
Ferafeed 217 Paste This formula is based on peanut butter. An industry standard.	Y	Y	N	-	-	Y
Ferafeed 219 Paste Smooth in a tube is the ideal companion bait for Cyanara50.	Y	Y	N	-	-	Y
Ferafeed 221 Pallets Extruded grain pallets.	Y	N	N	-	-	Y
Ferafeed 223 Extruded Long life trap bait.	Y	N	N	-	-	Y
Erayz No 3 Rabbit paste.	N	N	Y	-	-	Y
Erayz No 8 Rabbit paste dehydrated.	N	N	Y	-	-	Y

Uses

There is a Ferafeed or Erayz trap bait to suit the requirements of your animal control operation. The use of prefeeds allows the target species to become familiar with the flavour and delivery method prior to poisoning. They can also be used in combination with poisonous baits.

Sizes & Variants

Ferafeed 213 paste in a pail.
 Sizes: 4.5kg, 10kg or 20kg Pail
 The original ferafeed, mainly used with toxic baits such as Feracolor or Feratox.

Ferafeed smooth
 Sizes: 1.2kg or 10kg
 A sweet and smooth combination that attracts animals to the source, also used with Cyanara50.

Ferafeed pre-feed pellets.
 Sizes: 10kg or 20kg Pail
 Pre-feed in pellet form ideal for traps
