

FERAFEED 213

Premium Pre-Feed Paste

Products Forms

- Paste in pails for use in permanent or fixed bait stations
- Paste in Ferafeed 213 Striker bait stations.

Product Features

- The Connovation No 1 Seller- Ferafeed 213 is a non-toxic paste which attracts possums, rodents and wallabies to traps and bait stations.
- Ferafeed 213 is highly palatable to target animals, combining top grade peanut butter and mixed grains.
- Designed to be used before, and alongside toxic baits.
- Research has established that pre-feeding prior to laying poisonous baits greatly enhances the success of control operations as it allows the target species to become familiar with the flavour and delivery method prior to poisoning.
- Used by The Department of Conservation and other leading pest controllers and conservationists.

Ferafeed 213 Paste in a Pail Product Features

- Paste options are designed for placement in permanent or fixed bait stations and encourage bait station feeding.

Ferafeed 213 Striker Product Features

- Ferafeed 213 Striker is a ready to use potato starch bait station filled with 18 grams of non-toxic 213 paste. The Bait station is glued to a card for ease of attachment and dipped in wax to provide weather and handling protection.

PRODUCT	CODE	QUANTITY	PRICE
